## **Description**

SHARE (Survey of Health Ageing and Retirement in Europe) is a multidisciplinary, cross-national and longitudinal survey measuring how health, economic and social living conditions of Europeans aged 50+ is changing over time. SHARE is a major source for ageing research in Europe and throughout the world, including anonymised longitudinal and cross-sectional data of more than 140.000 individuals over the age of 50. SHARE is based on individual, computer-aided personal interviews and six waves have been carried out so far. Currently SHARE includes 28 countries, including Sweden.

## **Data contains personal data**

Yes

## **Sensitive personal data**

Yes

## **Type of personal data**

Pseudonymised data

## **Code key exists**

Yes

## **Language**

[English](#)

[Swedish](#)

## **Unit of analysis**

[Household](#)

[Individual/Patient](#)

## **Population**

Random sample of population 50 years and older

## **Study design**

Observational study

Cohort study

Cohort study: Prospective

## **Sampling procedure**

[Probability](#)

## **Time period(s) investigated**

2004 - Ongoing

## **Data format / data structure**

[Numeric](#)

## **Geographic spread**

Geographic location: [Europe](#)

Geographic description: 28 countries in Europe including Sweden

## **Lowest geographic unit**

Country

## **Highest geographic unit**

Country

## **Responsible department/unit**

Centre for Demographic and Ageing Research, CEDAR

## **Ethics Review**

Umeå - Ref. 2013-373-31Ö

Subsequent studies have been approved through supplementary applications
