Description

The dataset contains survey responses from a nationally representative survey of women's safety. Many questions are about women's experiences of men's violence over the past 12 months, and since the age of 15. ROKS and Örebro University led the project, and the survey responses were collected by SCB.

Data contains personal data

Yes

Sensitive personal data

Yes

Type of personal data

Indirect identifiers, questions about health, and exposure to violence.

Language

[Swedish](#)

Unit of analysis

[Individual](#)

Population

Women aged 18-86, registered in Sweden on January 31, 2021.

Time Method

[Cross-section](#)

Sampling procedure

[Probability](#)

Time period(s) investigated

1935-01-01 – 2021-04-07

Weighting

yes, the variable "wk"

Data format / data structure

[Numeric](#)

Data collection 1

- Mode of collection: Self-administered questionnaire: paper
- Description of the mode of collection: Pappersenkät med möjlighet att svara på webben.
- Time period(s) for data collection: 2021-04-07 – 2021-08-23
- Data collector: Statistics Sweden
- Sample size: 15000
- Number of responses: 6611
- Non response size: 8356
- Source of the data: Population group
