Description

Drug habit studies has previously been conducted among pupils in Scania in school year 6, 9 and high school year 2 in 2001, 2003, 2005 and 2007. Another drug habit study from 2011. From 2012 the drug habit study have been replaced with a more general living habits survey. The drug habit study were carried out in collaboration between Local Authorities Skåne County Administrative Board of Skåne, Social Medicine Unit at Region Skåne and the Central Association for Alcohol and Other Drugs (CAN). In the drug habit study 2009 total of 22 municipalities in Skåne and 2 gymnasieförbund participated. A total of 10,559 questionnaires were processed, of which 1,311 questionnaires in grades 6, 5359 questionnaires in year 9 and 3889 surveys in school year 2.

The aim with the study was to chart scanian pupils drug habits

Participating Municipalities school year 6: Bjuv, Bromölla, Båstad, Höganäs, Hörby, Klippan, Osby, Staffanstorp and Örkeljunga.

Participating Municipalities school year 9: Bjuv, Bromölla, Burlöv, Båstad, Eslöv, Hässleholm, Höganäs, Hörby, Klippan, Kristianstad, Kävlinge, Landskrona, Osby, Simrishamn, Sjöbo, Staffanstorp, Tomelilla, Trelleborg, Ystad, Ängelholm, Örkeljunga and Östra Göinge.
