Description

Since 1986 the SOM-institute has been carrying out an annual nation-wide survey of Swedish opinions. This is accordingly the seventeenth survey in this series. The SOM-institute is a collaboration between three departments at Göteborg University: the Institute for Journalism and Mass Communication, the Department of Political Science, and the School of Public Administration. Since 1998 the survey includes two nation representative samples and uses two different mail questionnaires. One of the questionnaires mainly deals with questions on politics, economy and working life, while the other mainly deals with media, culture and health. One third of the questions asked in the two questionnaires are common for both samples, for example questions about media habits, political attitudes, leisure activities, and social background.

Purpose:

The main purpose is to establish time series that enable researchers to analyse how various changes in society affect people's attitudes and behaviour.

Data contains personal data

No

Data collection 1

- Mode of collection: Self-administered questionnaire: paper
- Time period(s) for data collection: 2001-09-25 - 2002-02-12
- Data collector: Kinnmark
- Instrument: Frågeformulär (massmedia) (Questionnaire)
- Instrument: Questionnaire merged (1-2) (Questionnaire)
- Instrument: Frågeformulär (politik) (Questionnaire)
- Sample size: 6000
- Number of responses: 3638
- Non response size: 2632
- Cause of non response - Respondent unable to participate: 592
- Cause of non response - No contact/refusal: 2040
- Source of the data: Population group
