Description

Every year since 1986, the SOM Institute carries out a nationwide survey, National SOM (Riks-SOM), in which people are asked questions about politics, society, their use of media, public service, the environment, risks, new media technology and their leisure-time activities. Since 1992 a corresponding survey is carried out in Göteborg and its surrounding communities: Western SOM (Väst-SOM). Starting in 1996, a local study, Community SOM (Kom-SOM), is carried out in different municipalities surrounding Göteborg as well as town districts in the city of Göteborg. The results from these surveys shed light on three levels of society: the national, the regional and the municipal. The 2004 questionnaire consists of seven parts: Mass media; Politics and society; Society and service; Environmental and lifestyle issues; Municipal information; Working life; and background. The 2004 municipal survey was conducted in collaboration with Kinnmark Information.

Data collection 1

- Mode of collection: Self-administered questionnaire: paper
- Time period(s) for data collection: 2004-09 – 2004-12
- Data collector: Kinnmark Information
- Instrument: Questionnaire Stenungsund (Structured questionnaire)
- Sample size: 1200
- Number of responses: 813
- Non response size: 387
- Source of the data: Population group
