Description

In order to identify how the evolution of society affects Swedes' attitudes and behaviour, the SOM Institute started its National SOM study in 1986. National SOM addresses three areas - society, opinion and mass media - and consists of several parallel surveys. All surveys include a large number of questions related to politics, society, media and social background, but their areas of focus differ. In 2012, the following questionnaires are distributed: Sweden 1 focusing on politics and society; Sweden 2 focusing on media and culture; Sweden 3 focusing on life style and health; Sweden 4 focusing on economy and welfare

Purpose:

The main purpose is to establish time series that enable researchers to analyse how various changes in society affect people's attitudes and behaviour.

Data contains personal data

No

Language

[Swedish](#)

Unit of analysis

[Individual](#)

Population

Individuals aged 16-85 years and residing in Sweden

Time Method

[Longitudinal: Trend/Repeated cross-section](#)

Sampling procedure

[Probability: Simple random](#)

Five parallel nationally representative sub-surveys based on a sample of 3400 individuals each

Time period(s) investigated

2013 – Ongoing

Variables

1014

Number of individuals/objects

8406

Response rate/participation rate

49% (brutto) / 53% (netto)

Data format / data structure

[Numeric](#)

Data collection 1

- Mode of collection: Self-administered questionnaire: paper
- Time period(s) for data collection: 2013-09-13 – 2014-02-23
- Data collector: Kinnmark
- Sample size: 17000
- Number of responses: 8406
- Non response size: 8594
- Cause of non response - Respondent unable to participate: 1127
- Cause of non response - No contact/refusal: 7467
- Source of the data: Population group
