Description

The study on Rural Energy and Household Forest Values under Varying Management Regimes was conducted in Ethiopia. The general objective of this survey is to study household behavior regarding sustainable land use. Households were selected from the main four regions of Ethiopia (Amhara, Oromia, SNNP, and Tigray) in 2009. The data was generated by researchers at the Ethiopian Development Research Institute and Gothenburg University.

The general objective of this survey is to study household behavior regarding communally managed forest resources. The datasets submitted here consist of different data files in Stata format. Each file corresponds to a section in the questionnaire.

Data contains personal data

No

Language

[English](#)

Unit of analysis

[Household](#)

Population

Farming households in four regions: Amhara, Oromia, SNNP and Tigray

Time Method

[Cross-section](#)

[Longitudinal: Panel: Continuous](#)

Sampling procedure

[Probability: Stratified: Proportional](#)
[Probability: Cluster: Simple random](#)

Time period(s) investigated

2013-04-01 – 2013-06-30

Response rate/participation rate

95%

Data collection 1

- Mode of collection: Face-to-face interview: PAPI
- Description of the mode of collection: Enumerator assisted personal interview
- Time period(s) for data collection: 2013-03 – 2013-05
- Data collector: Ethiopian Development Research Institute, Environment and Climate Research Center
- Source of the data: Events/Interactions, Research data

Geographic spread

Geographic location: [Ethiopia](#)

Geographic description: The survey covers selected households from four major regions of Ethiopia: Amhara, Oromia, SNNP, and Tigray regions.

Responsible department/unit
