Description

The information in the abstract is translated from the archaeological report: The Swedish National Heritage Board's contract archaeology division, UV Öst, has performed a stage 2 survey, due to local planning within the Målarén block and others, in the city and parish of Skänninge, Mjölby municipality. Three distinct and nine uncertain features were found within the 110 000 m² big area. UV Öst suggests no further archaeological measures.

Purpose:

The information in the purpose is translated from the archaeological report: The purpose of the survey was to investigate whether the affected area contained any archaeological remains.

The ZIP file consist of GIS files and an Access database with information about the excavations, findings and other metadata about the archaeological survey.
