Description

An archaeological investigation was performed in Björnviken 2:1, Kvillinge parish, Östergötland on June 4-5 in 1991 due to the planned exit from road E4 (Stockholm - Norrköping) to road 55 (Uppsala - Norrköping).

Björnviken 2:1 is situated approximately one kilometre west of Bråviken and situated north of RAÄ 109 (Högarnas gamla tomt) and RAÄ 7 (a burial site). On a map from 1697 an old road from Stockholm to Norrköping is marked within the area. After clearing the road several iron objects were found, for example horse shoe fragments.

The investigation confirms the previous assumption of an old road located in the field at Björnviken 2:1 (area 18).

The ZIP-file contains three shapefiles with information on trenches, ancient monuments, archaeological finds and other data from the archaeological survey, as well as one geo-referenced map (© Lantmäteriet i2014/00696) of the survey in GeoTIFF-format.

Data collection 1

- Mode of collection: Field observation
- Description of the mode of collection: Schakt, lämningar etc har mätts in i fält med GPS och bearbetats i Intrasis. I samband med projektet "ArkeoGIS Ostlänken" migrerades data till ESRI ArcMap samt MS Access och harmonierades enligt projektets riktlinjer.
- Time period(s) for data collection: 1991-05-04 – 1991-05-05
- Data collector: Swedish National Heritage Board UV Mitt

Data collection 2

- Mode of collection: Compilation/Synthesis
- Description of the mode of collection: Schakt, lämningar etc har mätts in i fält med GPS och bearbetats i Intrasis. I samband med projektet "ArkeoGIS Ostlänken" migrerades data till ESRI ArcMap samt MS Access och harmonierades enligt projektets riktlinjer.
- Time period(s) for data collection: 2014 – 2014
- Data collector: Uppsala University, Department of Archaeology and Ancient History.
