C It is hard to choose party because you never know whether the parties intend to keep their promises when the election is over	3	2	1	0
D When one listens to the parties' representatives on radio and TV, one notices that they are both wellinformed and competent	3	2	1	0
E Those who sit in the Riksdag and make decisions usually don't know anything about what ordinary people want and think	3	2	1	0

## ELECTION STUDY 1964

## MAIL QUESTIONNAIRE

Post-election

To Respondent

Through yours and many others kind cooperation, we have been able to carry out an interview study in connection with this years election. We hope that this study will give valuable and reliable results.

Our study is now to be completed by this little mail questionnaire. It contains some questions which we for practical reasons couldn't include in the interview before this election. Your answers will be treated confidentially. No outsider will be able to acquaint himself with your particular answer to any question. Your answer will only be used for statistical analysis and reported in tables.

We should be very grateful if you could answer the questions on the following pages and return the mail questionnaire in the enclosed envelope. Our address is printed on the envelope and you don't have to stick on any stamps. Please mail the envelope as soon as possible, preferably already today or tomorrow.

The questions on the following pages will be the last in our study. Once again, thank you for your willingness to help us.
