Sammanfattning

The Comparative Parliamentary Democracy Data Archive data set consist of cabinet-level data of 17 Western European democracies for post-WWII cabinets through January 1, 1999. All together, a total of 424 coalitions, single party and non-partisan cabinets are included. Data for Greece, Portugal and Spain exist only after their democratizations in the 1970s, while data on France is limited to the Fifth Republic beginning in 1959. For the purposes of our data set, it can be said that the world "froze" on January 1, 1999. The last observation in each country is coded on the basis on the information that was available on that day.

Analysenhet	Organization Cabinets
--------------------	------------------------------

Räckvidd och täckning

Nyckelord	government, government policy, government role, state control, political coalitions, political parties, representative democracy, political institutions
Ämnesområden	mass political behaviour, attitudes/opinion, government, political systems and organisations, international politics and organisations
Tidsperiod(er)	1940
Länder	Belgium, Denmark, Finland, France, Greece, Ireland, Iceland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, United Kingdom, Sweden, Germany, Austria
Geografisk täckning	17 nations in Europe
Population	424 cabinets (coalitions, single and non-partisan)
