

Sveriges universitets- och högskoleförbund
The Association of Swedish Higher Education Institutions

Involving Swedish HEIs

**- bringing together the players in the field to
put Open Science on the agenda**

Some brief facts

The Swedish Rectors' Conference

The Association was founded in 1995

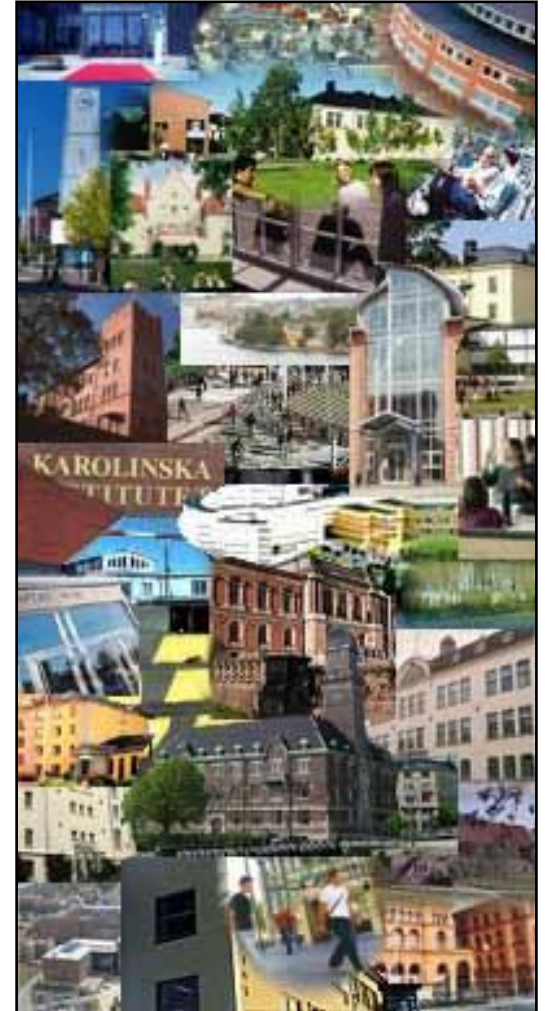

Promote collaboration between HEIs and act on issues of common interest

38 members

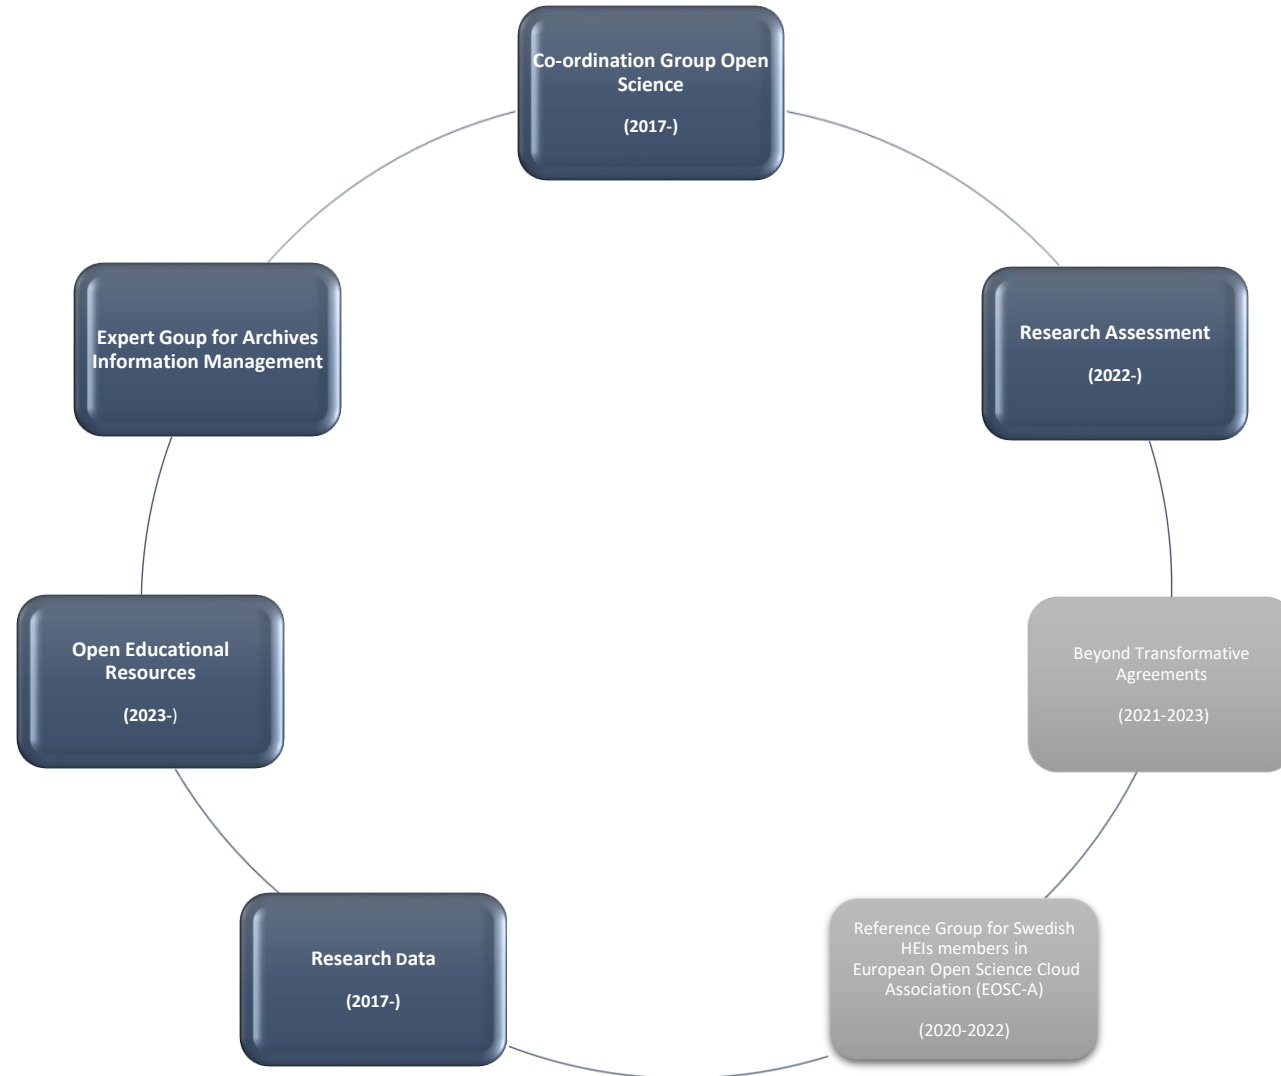

Financed by the member institutions

General Assembly, Board, Presidium and a small office –
approx. 30 permanent and temporary working groups

Member of the *Nordic University Association (NUS)*, the *European University Association (EUA)*, the *International Association of Universities (IAU)*, *European Open Science Cloud Association (EOSC-A)* and *Coalition for Advancing Research Assessment (CoARA)*

Roadmap for Open Science - 9 Recommendations

1. Framework for research and education environments
2. Provide services and support for the entire research process
3. A culture of sharing educational resources
4. Strive for FAIR research data and research results
5. Provide adequate and secure infrastructural services
6. Promote cooperation with other HEIs, infrastructures and funders
7. Promote and participate with international initiatives
8. Promote and develop incentive structures
9. Ensuring copyright vis-à-vis publishers

REC 2021: 1 (rev. in 2022 and 2024) *Abbreviated version*

Guide for Implementation of the Roadmap for Open Science

A complement to the Roadmap for Open Science

Established in 2022 and revised in 2024 due to a new recommendation

Contains 34 comprehensive proposals for actions linked to the nine recommendations

The proposed measures are set for 2022-2026

Provide overall support to all HEIs regardless of size or specialisation

Annual follow-up 2023-2026 (survey) to see development over time

Find out how the HEIs are doing in their work

- Previous SUHF research data management survey 2018-2022
- New survey from 2023- 2026 based on the roadmap and the proposals in the guide
- Response options – started (yellow), not started, implemented (green), don't know
- Work in progress in all areas
- Recommendation 7 (participation international initiatives) and 8 (incentive structures) have significantly fewer HEIs that have actively started the work according to the proposals
- Most HEIs find the road map and guide useful in their work

SUHF

Rekommendation 1

Att skapa forsknings- och utbildningsmiljöer som stödjer, uppmuntrar, informerar och utbildar om öppen vetenskap som praxis, genom att anta, implementera och förankra lokala **styrdokument** eller **ramverk**.

SUHF, Forskningsdatagruppen, 2023 4

SUHF

1. "Senast vid utgången av **2022 inrätta en formell strategisk funktion** vid lärosätetsledning med inriktning på frågor inom öppen och FAIR vetenskap..."

Har lärosätet genomfört detta i linje med förslaget?

	Antal svar
Påbörjat	12 (38,7%)
Ej påbörjat	11 (35,5%)
Genomfört	8 (25,8%)
Vet ej	0 (0,0%)
Summa	31 (100,0%)

SUHF, Forskningsdatagruppen, 2023 5

Example from survey 2023. Currently only available in Swedish.

Orienteringskartan

- The “orienteering map” has been produced by SUHF/Research Data Group and Swedish National Data Service (SND). It is based on the Association of Swedish Higher Education Institutions' Roadmap for Open Science (2021:1)
- Plan, concretize, and follow up the work to achieve the goals of the recommendations in the roadmap for Open Science
- Plan for SUHF's annual survey on Open Science
- Get examples of development work and measures from Swedish higher education institutions and share experiences with others.
- Available at SND Community Zenodo, SND website (at the moment only in Swedish)
