EKG

1.   0.0.0. = Blank - no ECG available   ◯ 14-16
   ◯
   *AS472*   ◯

2.   1.0.0. = No herein reportable ECG items   ◯ 17-19
                                                            ◯
      A 5473   ◯
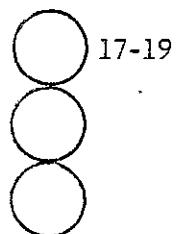

3.   <u>Q and QS patterns</u>   .... ◯ 20-22
                                                            ◯
      AS474   ◯

4.   <u>QRS Axis deviation</u>   ....   ◯ 23-24
                                                            ◯
      A5475
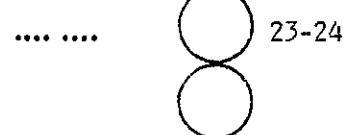

5.   <u>High amplitude R waves</u>   .... ◯ 25-26
                                                            ◯
      A5476

6.   <u>ST depressions</u>   .... ◯ 27-28
                                                            ◯
      A5477

7.   <u>T wave items</u>   .... ◯ 29-30
                                                            ◯
      A5478

2
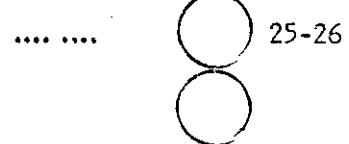

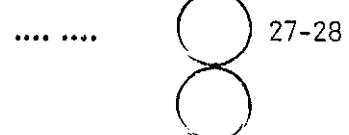

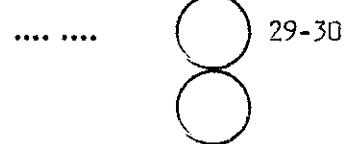

8. A-V conduction defect .... ( ) 31-32
                                        ( )

    A 5414

9. Ventricular conduction defect .... ( ) 33-34
                                                ( )

    A 5480

10. Arrhytmias .... ( ) 35-36
                            ( )

    A 5481

11. Miscellaneous items .... ( ) 37-38
                                     ( )

    A 5482

12. Ectopic beats .... ( ) 39-41
                                   ( )
                                   ( )

    A 5483

13. Medication .... ( ) 42-44
                                ( )
                                ( )

    A 5484

14. Hjärtfrekvens .... ( ) 45-47
                                   ( )
                                   ( )

    A 5465
