VALU 2018 - SVT exit poll survey parliamentary election 2018(VALU18)

VALU 2018 - SVT:s vallokalsundersökning riksdagsvalet 2018

Översikt

Typ	SVT exit poll surveys
Identifikation	SND1067-001
Version	Produktionsdatum2018-11-23 1.0
Serie	<p>In Valu - Swedish exit poll surveys - voters leaving polling stations are asked by public service broadcaster Sveriges Television (SVT) to fill in a questionnaire and put it anonymously in a sealed box. After collecting and processing the responses, Sveriges Television is able to present an election forecast and an analysis of the reasons underlying the outcome of the election in it's Election Night broadcast. The surveys are referred to as VALU, an abbreviation for vallokalsundersökning, Swedish for exit poll survey.</p> <p>VALU has been carried out by the public service broadcaster Sveriges Television (SVT) in connection with all national elections since 1991; parliamentary elections, referendums, and elections to the European Parliament. The first exit poll survey in Sweden was carried out by SVT in collaboration with Stockholm University and University of Gothenburg. Since 1994, SVT has carried out the studies in collaboration with University of Gothenburg and the Royal Institute of Technology in Stockholm (KTH).</p> <p>SVT's main aim with VALU is to obtain an analytical basis for SVT's election night broadcast and for SVT's and other professional analysts' post-election analyses. Another aim is to be able to forecast the result of the election at an early stage during election night. VALU is carried out in geographical regions centred around the largest university cities. A university lecturer is appointed in each of the regions as regional survey leader. Together, these survey leaders are responsible for the field workers who carry out the survey where voting takes place before election day and outside polling stations during election day. Survey leaders and field workers are recruited from departments of statistics at the respective university. Thus, all survey leaders and field workers are familiar with statistical methods.</p>

Sammanfattning

This exit poll survey was carried out in connection with the parliamentary election on September 9, 2018. In VALU - Swedish exit poll surveys - voters leaving polling stations are asked by public service broadcaster Sveriges Television (SVT) to fill in a questionnaire and put it anonymously in a sealed box. After collecting and processing the responses, Sveriges Television is able to present an election forecast and an analysis of the reasons underlying the outcome of the election in it's Election Night broadcast. The surveys are referred to as VALU, an abbreviation for vallokalsundersökning, Swedish for exit poll survey. The first exit poll survey in Sweden was carried out at the parliamentary election in 1991. Since then similar studies have been carried out in connection with all Parliamentary elections, referendums and elections to the European Parliament.

Typ av data	Voting data: Exit polls
Analysenhet	Individual

Räckvidd och täckning

Nyckelord	political party, local government elections, exit polls, voting, parliamentary elections, voting behaviour, election data, government, political party leaders, electoral issues
Ämnesområden	elections, political behaviour and attitudes, Political Science
Tidsperiod(er)	2018
Länder	Sweden

Population

Swedish electorate

Andra producenter	Sveriges Television

Urval**Urvalsprocess**

In VALU a selection is made of a number of electoral districts and in this way their respective polling station. The number of electoral districts to be selected for VALU is allocated among the different regions according to the size of the electorate. Within each region, the electoral districts are then selected to be included in VALU. This selection is based on the size and geographical location of the electoral district.

Mixed probability and non-probability
